VENTURE CIRCUIT

FROM DISTRIBUTION TO LIFECYCLE MONETISATION

Building the Next ₹200 Crore Business: *Strategic Growth Plan for DealPlexus*

The Write-Offs

St. Xavier's College (Autonomous), Kolkata

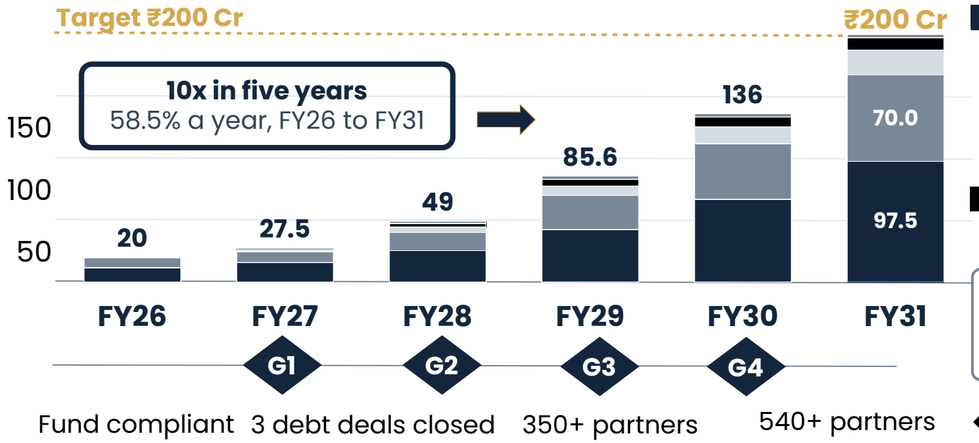

SHAURYA VIJAY SINHA
ST. XAVIER'S COLLEGE, KOLKATA

From selling products to monetising the whole client lifecycle

₹200 Cr by FY31: earn more per client, and ration senior time by score.

THE PATH TO ₹200 CR

Gross revenue by engine, ₹ Cr, base case. FY26 is a bottom-up estimate.

Fund compliant | 3 debt deals closed | 350+ partners | 540+ partners

FY31 mix

- **Distribution** ₹97.5 Cr · 49%
- **Debt desk** ₹20.1 Cr · 10%
- **Advisory** ₹70.0 Cr · 35%
- **Readiness** ₹10.0 Cr · 5%
- **Angel Fund** ₹2.5 Cr · 1%

Stress test
Median ₹189.4 Cr. 92.3% chance of at least ₹150 Cr.

◆ Gate: milestone to clear first

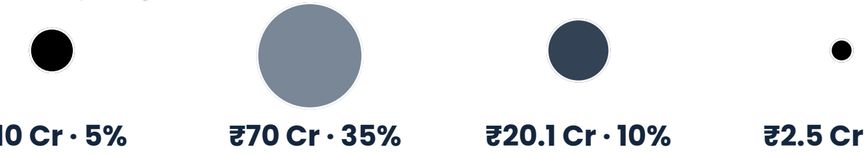

THE SHIFT: ONE CLIENT, FOUR PAID STAGES

FROM Fragmented distribution: 72+ products sold one by one through 29,231 referral partners

TO Lifecycle monetisation: a client enters at diagnosis and stays through funding

DIAGNOSE	ADVISE	DEBT DESK	CO-INVEST
₹5 L per client	*₹1.4 Cr per mandate*	*0.75% of deal value*	*2.5% fund fee*

FY31 revenue by stage (circle area)

₹10 Cr · 5% | ₹70 Cr · 35% | ₹20.1 Cr · 10% | ₹2.5 Cr · 1%

DP Buddy network feeds every stage: **₹97.5 Cr distribution revenue, 117 to 750 partners**

BN 1 Messy data, wrong route

Books built for the tax office, price gaps and family disputes stall high-margin advisory deals.

FRAMEWORK Readiness routing

5 hard gates → Score R, 0 to 100 → 4 possible routes

₹80 Cr FY31 revenue: advisory ₹70 Cr plus diagnostics ₹10 Cr

BN 2 Trust and complexity

Investors doubt a fund run by the platform that also advises founders, and each deal costs too much to serve.

FRAMEWORK Trust-first fund design

Independent committee → PPM-fixed allocation → Standard deal pack

₹2.5 Cr FY31 fund fee. A trust event would cost ₹17.7 Cr of revenue

BN 3 Eligibility and lender access

2026 rules open cross-border acquisition debt, but eligibility, lender access and local risk are unproven.

FRAMEWORK Gated corridor expansion

Weighted market score → India, Gulf, ASEAN → Four stage gates

₹20.1 Cr FY31 debt desk: 13 deals × ₹206 Cr ticket × 0.75% fee

HOW WE PROTECT SHARED SENIOR TIME

Four gates
Nothing scales until the one before it clears

Score first
The readiness score decides who gets senior hours

Contribution rule
A new line must beat advisory's ₹28.0k per senior hour

Capacity plan
22 senior FTEs by FY31, 82% used against an 85% cap

WHAT MAKES THE PLAN WORK

49%
Partner-led
₹97.5 Cr revenue without equivalent senior capacity

₹28k
Hourly hurdle
Minimum contribution per senior hour for new lines

4 gates
Gated expansion
India → Gulf → ASEAN, subject to viability

Scaling to ₹200 Cr: A Five-Year Growth Roadmap

Three bottlenecks, four gates: nothing scales until the one before it clears

₹200 Cr Annual Revenue by FY31 | **10x** vs. FY26 EST. | **58.5%** CAGR

BN 1 Messy data, wrong route (FY27–FY29)

Score pilot in FY27, paid diagnostics FY28, listing route live by FY28.

BN 2 Trust & complexity (Mar 2027–FY30)

Compliance fixed by G1, 31 Mar 2027; investor base and deal flow built to FY30.

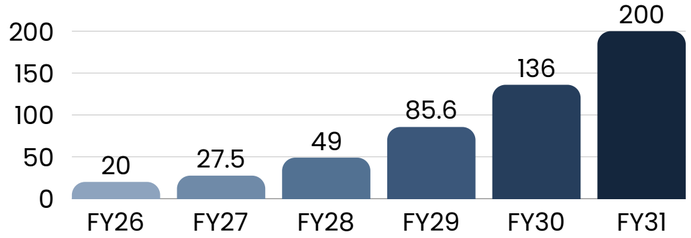

BN 3 Eligibility & lender access (FY27–FY30)

Lender panel and ECB desk FY27-28, then Gulf in FY29, Southeast Asia pilot in FY30

	FY27	FY28	FY29	FY30	FY31
Distribution Leverage existing network and B2B2C model	**Scale partner network and client origination**				
	Partner onboarding & training	Expanded client referral flow	Broader sector coverage	New verticals & segments	Full scale operations
Advisory & Capital Ready Make businesses investable and route-ready	**Build and productise the readiness framework**				
	Standardise diagnostic and scoping model	Launch readiness programme	Scale advisory & listing support	Improve conversion and pricing	Full integration with distribution
Cross-Border Debt Capital light desk to connect borrowers and lenders		**PILOT → PROVE → SCALE**			
		Lender panel and market selection	First completed transactions	Expand to next markets	Scale production suite (project, acquisition, layout)
Jindagi Live Angel Fund Trust, governance and repeat participation.	**Stabilise and grow the investor base**				
	Accredited investor onboarding	Deal process and reporting cycle	Build track record and referrals	Expand investor base and deal flow	Scale fund size and deal flow

Revenue Trajectory

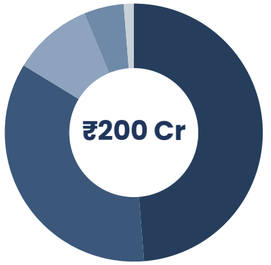

₹ Cr, annual

FY26 ₹20 Cr is a bottom-up estimate in the model

Revenue Mix (FY31)

Distribution	49%
Advisory	35%
Debt desk	10%
Readiness	5%
Angel Fund	1%

Senior FTEs by line, FY31 (total 22)

15	5	1	1
Advisory team	Debt Desk	Readiness	Angel Fund

G1: FY27

Angel Fund compliant with accredited-only rule - scoring consistency tested - lender panel documented

G2: FY28

3 debt deals closed in FY28, positive contribution - 230 active partners - senior utilisation <=85%

G3: FY29

>350 active partners - outbound debt pilot positive after local costs

G4: FY30

>540 active partners - Southeast Asia entry only on scorecard evidence

Readiness routing: segment first, then spend

A readiness score decides each client's route and who gets senior time

BN 1 SOLVES BOTTLENECK 1 — Messy data, wrong route

1. **Intake** — One CA data pack for every client
2. **Hard gates** — Five pass or fail checks
3. **Score R** — 0 to 100, evidence based
4. **P vs L** — Private-capital fit vs listing fit
5. **Route** — One of four outcomes

Why deals stall in the case: fragmented data, valuation gaps and family control disputes. The fix: test readiness first, and spend senior time only where a route exists.

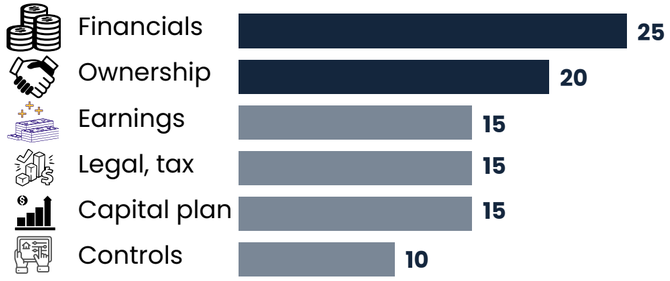

SCREEN, THEN SCORE

STAGE 1: FIVE HARD GATES

Any fail = get ready first

- Books reconcile
- Decision rights clear
- Legal and tax disclosed
- Promoter cooperates
- Listing-eligible (live SME rules)

STAGE 2: SCORE R WEIGHTS (%)

R = Σ weight × (score − 1) ÷ 4, each scored 1 to 5. Floor: financials and governance must each score 3+.

CHOOSE THE ROUTE

STEP 1: READ THE SCORE R

Below 45	45 to 69	70 and up

R < 45 — **Get ready first**
Or any gate fails. Fix books and ownership before outreach.

R 45–69 — **Readiness programme**
Paid sprint, partner-led, then score again.

STEP 2: AT R 70 AND UP, COMPARE FIT SCORES

SME LISTING	COMPARE	PRIVATE CAPITAL
L beats P by 10+	Within 10: test the economics	P beats L by 10+

L = SME-listing fit, P = private-capital fit

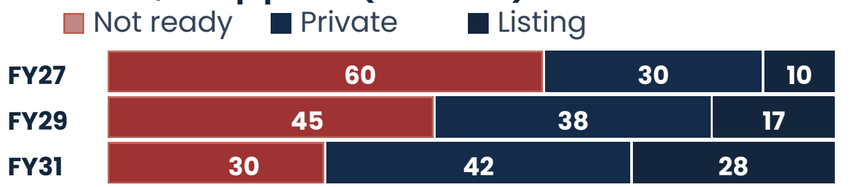

Why **two scores?** A single blended score can **mask weak financial records** behind strong growth. **R assesses client readiness**; **P and L** determine the **appropriate growth pathway**.

SPEND SENIOR TIME BY TIER

Diagnostic	CA-led, 2 weeks	**6 hrs** ₹5 L fee = ₹83k per senior hour
Sprint	Partner-led, DealPlexus QA	**QA only** Sign-off, no delivery time
Mandate	Raise or list, 60 to 120 days	**350 hrs** ₹1.4 Cr fee = ₹40k per hour

20% of last year's diagnostics become a mandate. In FY31, **200 diagnostics** use **1,200 senior hours** and **50 mandates** use **17,500**.

Client mix, % of pipeline (assumed)

FY31: 50 mandates = 18 direct + 32 from FY30 diagnostics (20%)

DealPlexus never does

- Build ERPs or fix books itself
- Let fees pick the route
- Spend senior hours on a failed gate
- Run a mandate with no named decider

Angel Fund: earn trust first, then scale

A ₹2.5 Cr fund guarding a ₹200 Cr brand: trust before scale

BN 2 — SOLVES BOTTLENECK 2: Trust & complexity

5 months to comply

Now · Oct 2026
Verify Jindagi's registration date and PPM

31 Mar 2027 · G1
Accredited-only for funds registered on or before 10 Sep 2025

FY28
About 60 verified investors, 4 deals in the year

FY29
About 100 verified investors, 5 deals a year

SOURCE THE DEALS

Fixes: slow, uncertain deal flow

- **Incubators and accelerators** — Cohort-based startup pipelines
- **Founder network** — Referrals from founders we already know
- **DP Buddy CAs and IFAs** — Partner advisers bring deals and investors
- **Advisory clients post-exit** — Exited founders back the next round, with consent

Pace: investments a year: 3, 4, 5, 5, 5. That is 22 by FY31, inside the case range of 15 to 25.

PROTECT TRUST

Fixes: trust and conflicts

- **Independent committee** — Deals approved outside the sales team
- **Conflict register** — Every DealPlexus interest disclosed, with recusal
- **PPM-fixed allocation** — Rules set in advance, not by manager choice
- **Auditable records** — Every decision can be traced

Rule: Every deal is offered to all eligible investors. Each one consents individually.

STANDARDISE EACH DEAL

Fixes: per-deal complexity

- **Memo and term sheet** — One standard pack for every investment
- **One data room** — Q&A, documents and e-signature in one place
- **Explicit consent** — Asked for each investment, no standing opt-in
- **Fixed reporting** — Post-deal updates on a set calendar

Principle: Standard documents cut the cost per deal. They never replace informed consent.

LIFT PARTICIPATION

Fixes: awareness and participation

Identified → Accredited → Onboarded → Active → Participating → Repeat

100 investors join by FY29 × **40%** each deal × **₹15 L** cheque each = **₹6 Cr** raised per deal

At 100 investors, 25% participation raises ₹3.75 Cr a deal. Lifting it to **40% raises ₹6 Cr**, with no extra investors.

ROLE IN THE ROADMAP

₹2.5 Cr

FY31 contribution: ~1% of revenue. Beyond fees, the fund builds credibility and creates a Series A deal pipeline.

IF TRUST BREAKS

-₹17.7 Cr

FY31 downside: ~9% below target, driven mainly by a 10% drop in partners and mandates from FY29; lost fund revenue accounts for just ₹1 Cr.

DEPLOYED BY FY31

₹94.5 Cr

Portfolio target: 22 startups within the ₹100 Cr corpus, requiring 3–5 investor-backed deals annually.

Build the corridor, then scale the deal flow

An asset-light desk structuring Indian cross-border debt.

BN 3 SOLVES BOTTLENECK 3 — Eligibility & lender access

2026 REGULATORY OPENING RBI acquisition-finance and revised ECB frameworks expand structuring options, subject to eligibility, end-use and compliance requirements.

THE CORRIDOR

0.50% ₹13.4 Cr | 1.00% ₹26.8 Cr
*Total debt desk; domestic + cross-border.

MARKET SELECTION

Choose corridors on evidence, not prestige alone

UAE
WAVE 1 • GULF
Strong India trade ties; established syndicated lending, private-credit and project-finance markets.

SAUDI ARABIA
WAVE 1 • GULF
Vision 2030 is driving major energy and infrastructure projects, attracting growing interest from international banks.

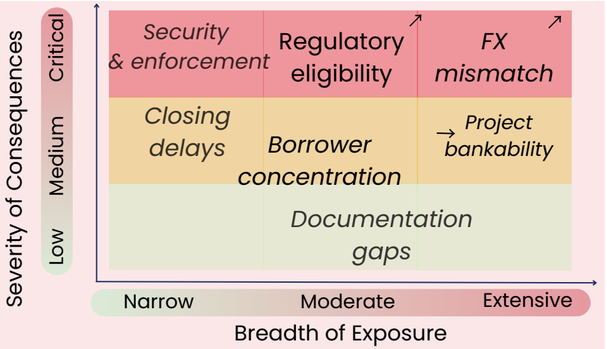

MALAYSIA
WAVE 2 • ASEAN
Established project-finance and sukuk markets, supporting energy transition, data-centre and infrastructure investments.

INDONESIA
WAVE 2 • ASEAN
Infrastructure and PPP projects attract financing from foreign banks, development institutions and export-credit agencies.

VIETNAM | WAVE 2 • ASEAN
Strong infrastructure demand and growing offshore borrowing, but FX exposure and bankability risks favour a partner-led entry.

India-first expansion, followed by **UAE and Saudi Arabia**, with **ASEAN entry** conditional on securing **local partners and a qualified deal** pipeline.

RISK HEATMAP

RISK MITIGATION

COMPLIANCE & LEGAL
RBI / ECB screening and local security due diligence

EXECUTION CONTROL
Milestone-based closing and transaction tracking

FINANCIAL PROTECTION
FX hedging, currency matching and exposure limits

PROJECT VIABILITY
Cash-flow, feasibility and bankability assessment

WEIGHTED MARKET SCORE

Bankable demand	**25%**
Lender depth	**20%**
Product fit	15%
Regulatory feasibility	15%

G*4 FY31
Scale only positive-contribution lanes
Scale

Diversify only where the next senior hour earns more than it does today

₹200 Cr needs 22 senior FTEs by FY31. Opportunity cost is counted in senior hours, not in rupees of revenue

₹200 Cr FY31 revenue, 10x the ₹20 Cr FY26 base

58.5% Revenue CAGR, FY26 to FY31

₹112.8 Cr FY31 contribution, a 56.4% margin

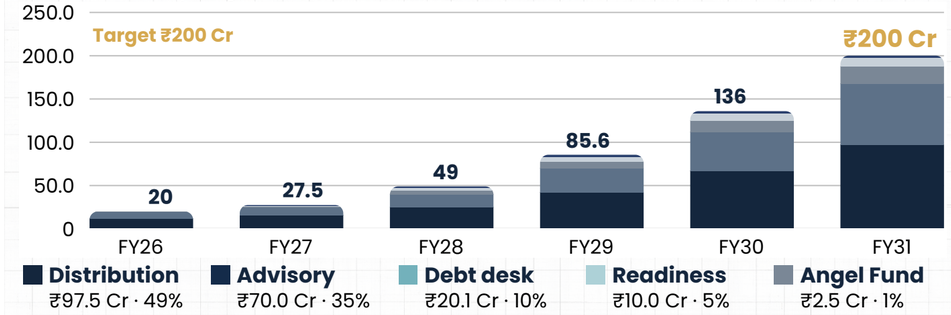

₹60.6 Cr FY31 EBIT, a 30.3% margin on revenue

22 Senior FTEs in FY31, at 82% utilisation

REVENUE BUILD

Revenue grows 10x to ₹200 Cr by FY31

Gross revenue by engine, ₹ Cr, base case

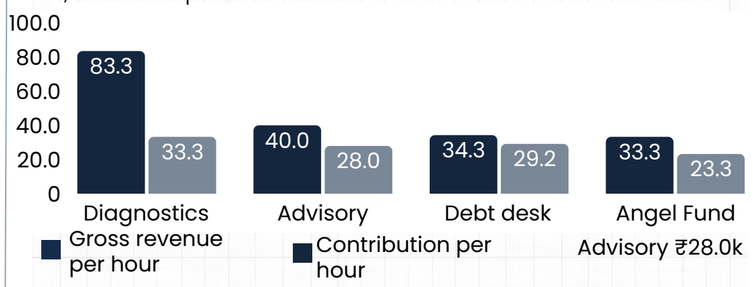

49% of FY31 revenue is partner-delivered and uses no senior hours. The other 51% competes for the same 22 senior FTEs.

REVENUE PER SENIOR HOUR

Senior hour earns most on diagnostics; least on the fund

FY31, ₹ thousand per senior hour

Diagnostics +₹5.3k per hour

Debt desk +₹1.2k per hour

Angel Fund -₹4.7k per hour

THE MODEL

1. **Scale distribution** through partner-network expansion.
2. **Grow advisory mandates** and **client conversions**.
3. **Build debt-arrangement** and financing capabilities.
4. **Develop** fund-led, fee-based **revenue streams.**

MONTE CARLO SIMULATION: HOW LIKELY IS ₹200 CR?

92.3%

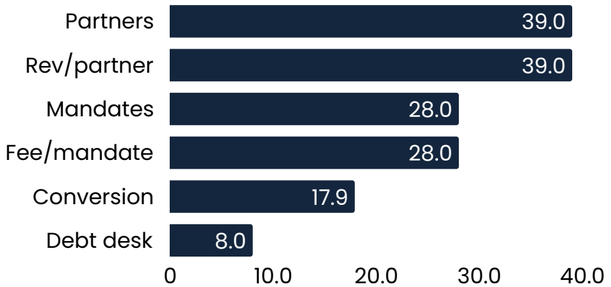

Probability of achieving ₹150 Cr+ in FY31

₹189.4 Cr

Median FY31 revenue across 10,000 simulations

What moves FY31 revenue most

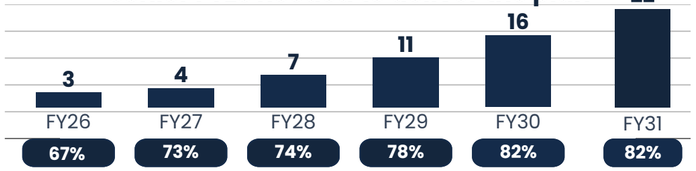

Swing in ₹ Cr when one driver moves from -20% to +20%

Monte Carlo analysis across **10,000 simulations** indicates a **median FY31 revenue** of **₹189.4 Cr,** with a **92.3% probability** of **exceeding ₹150 Cr.** P(≥₹200 Cr) = 35.6%; P10 ₹153 Cr, P90 ₹227 Cr. ₹200 Cr is the plan; ₹150 Cr is the downside marker

SENIOR CAPACITY

Senior FTEs needed to deliver the plan

Pills show utilisation. Cap is 85%. FTE = senior hours ÷ (1,400 hours × 85%).

OPPORTUNITY-COST RULE

Move 1,000 senior hours from advisory to debt (FY31)

Gross revenue	Contribution
-₹0.57 Cr	**+₹0.12 Cr**
(₹40.0k - ₹34.3k) × 1,000	(₹29.2k - ₹28.0k) × 1,000

Open a new line only if its contribution per senior hour exceeds advisory's ₹28,000 benchmark. Debt clears the hurdle by ₹1,200; the fund falls short.

ANNEXURE

KEY TERMS

Senior hour: One hour of partner or director time. 1 FTE = 1,400 h × 85% cap.

Diagnostic: Two-week CA-led readiness check: 6 senior hours, ₹5 L fee.

DP Buddy: Partner network of CAs and independent financial advisors (29,231).

Gate: A milestone that must be met before the next step scales.

Mandate: Signed engagement to raise capital or list: 350 senior hours.

PPM: Private placement memorandum: fixes the fund's allocation rules.

Score R: Readiness score, 0 to 100. Below 45, get ready first.

Contribution: Revenue less direct costs, judged per senior hour.

SME listing: Listing on NSE Emerge or BSE SME instead of a private raise.

P and L: Fit for private capital (P) and listing (L). A 10-point gap picks the route.

Utilisation: Share of senior hours booked. Capped at 85%.

ECB: External commercial borrowing: foreign loans to Indian companies.
